HIPAA - RELEASE OF INFORMATION AUTHORIZATION FORM

In compliance with federal and state law, the release of information for any person 18 years or older (including the information regarding a spouse or adult child), must first be authorized. Authorization includes the signature of the individual authorizing the release of their information. Information will not be available to anyone other than the covered patient (i.e. a member, a spouse, or any dependent age 18 or older) without first having this Release of Information Authorization on file. For example, if a subscriber calls about the status for a claim on a 19-year old dependent, that information will not be given to the subscriber without the written consent of the dependent. The same situation holds true for spouse-to-spouse information. However, parents do have a right to information on children under the age of 18 without the child's consent.
